REVISED WATER PUMP PULLEY AND DRIVE BELT

Models affected

4.2 'E' Type
4.2 'E' Type 2 + 2

Commencing Engine Numbers

7E.17158
7E.54837

Commencing at the above engine numbers, a revised water pump pulley is fitted to all 4.2 'E' type and 4.2 type 2 + 2 cars.

In conjunction with the introduction of the revised pulley, a new drive belt is also fitted.

The new pulley is smaller in diameter than the one it replaces, which results in a higher water pump speed and consequent increase in pump flow rate.

This modification may be incorporated only by replacing both items quoted below.

4.2 'E' Type	-	Belt C.26376 Pulley C.28594
4.2 'E' Type 2 + 2	-	Belt C.26376 Pulley C.28594
4.2 'E' Type 2 + 2 (with air conditioning)	-	Belt C.28955 Pulley C.28609
